The new comfort zone

PLEASANTLY REFRESHING: VICLEAN SHOWER TOILETS

A clean and fresh feeling after every visit to the toilet – the ViClean-I 100 and ViClean-I 200 shower toilets boast pleasant and convenient shower functions and practical hygiene features. And the clever bit... From the outside they are not recognisable as shower toilets, as their comfort features are concealed discreetly inside. For a stylishly elegant design that will suit any bathroom.

SHOWER FUNCTION

Refreshing hygiene plus clean and gentle cleansing with water instead of paper.

- Rear wash and Lady wash, each function with its own shower nozzle
- Three spray modes: constant shower spray, HarmonicWave and pulsating spray
- Shower arm withdraws flush into the panel after completion of the shower programme, where it is protected from dirt and splashing
- Water temperature adjustable to five levels from 30 to 40 °C

HARMONICWAVE

Harmonious combination of oscillating and rotary motion.

- The shower jet moves gently back and forward in a lateral wave motion
- A particularly pleasant and invigorating cleansing experience
- Exclusively with the ViClean-I shower toilets from Villeroy & Boch

AWARD-WINNING TOILET DESIGN

These elegant shower toilets are really something to look at.

- Numerous international design awards
- Technical features are ingeniously integrated into the ceramics
- From the outside the shower toilet appears no different to other toilets
- Clear-cut, modern design fits perfectly into almost any bathroom

HYGIENIC RIGHT DOWN TO THE LAST DETAIL

Practical hygiene features make ViClean-I the immaculate solution.

- CeramicPlus surface finish prevents deposits of limescale and dirt and facilitates cleaning
- The rimless DirectFlush design ensures simple and efficient cleaning
- Automatic cleaning of the nozzle both before and after each toilet use
- Shower nozzle head can be removed for cleaning

INSTALLATION AID

Our ViClean shower toilets are swift and simple to install.

- The packaging serves as an installation aid, allowing easy installation of ViClean by one person
- Simply remove the top half of the cardboard box, leave the toilet standing on the bottom part of the box and slide it effortlessly onto the wall

INTEGRATED SEAT HEATER

A comfortable seat is crucial to a user-friendly toilet.

- Adjustable to five levels from 30 to 38 °C
- Heat is distributed evenly over the Duroplast toilet seat
- Power-saving Eco mode can be activated to lower the temperature when the seat is not in use

USER DETECTION

A sensor detects when the toilet is in use and only then are the functions enabled.

- Sensor is concealed in the toilet seat
- No risk of the shower or dryer function being activated by mistake, e.g. during cleaning

VICLEAN-I 200

DISCOVER YOUR NEW COMFORT ZONE

EXCEPTIONAL COMFORT AND CONVENIENCE

Hygiene, user-friendliness and aesthetic appeal – the ViClean-I 200 combines everything you could wish for in a perfectly equipped shower toilet. Apart from their innovative functions, our ViClean-I models also boast a range of features offering exceptional comfort and convenience.

COMFORTDRY

The integrated warm air dryer with pop-up nozzle offers the ultimate in freshness and hygiene.

- A pleasant flow of air instead of paper
- The targeted flow of air dries more effectively than a simple drying air outlet
- The dryer withdraws flush into the panel after completion of the drying programme, where it is protected from dirt and splashing
- Drying air temperature adjustable to five levels from 25 to 45 °C

INTUITIVE REMOTE CONTROL

Absolutely simple to use – by remote control or smartphone app.

- The main functions can be operated directly by remote control: shower and dryer function, water temperature and pressure, position of the shower arm, seat heating
- Additional feature in the ViClean app: saving of personal user profiles (temperature, position, etc.)

COLOUR VARIANTS

From classic to exclusive – the ViClean-I 200 is a perfect fit for any bathroom.

- Available in 2 exclusive colours: White Alpin and Pure Black
- Classic white matches any interior, while on-trend Matt Black lends the bathroom an added touch of exclusivity

VICLEAN-I 100

INGENIOUSLY DISCREET. REFRESHINGLY PLEASANT.

FOCUSED ON THE PRIME TASK OF CLEANSING WITH WARM WATER

Clear design meets impressive functionality: its intuitive operation and the key shower functions make the ViClean-I 100 a straightforward highlight in puristic bathrooms. And QuickRelease ensures swift and simple cleaning into the bargain.

QUICKRELEASE

Easy, quick and hygienic - thanks to the removable toilet seat.

- The toilet seat is simple to remove and refit
- The perfect solution for swift, easy and thorough cleaning of the toilet and seat
- More hygiene and cleanliness in the bathroom

INTUITIVE REMOTE CONTROL

It couldn't be simpler - convenient operation by remote control or app.

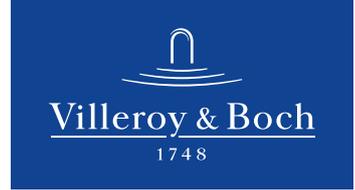

- The main functions can be operated intuitively by remote control: shower function, jet pressure and position of the shower arm
- Additional feature in the ViClean app: Saving of personal user profiles

A COMPARISON OF OUR SHOWER TOILETS

Both shower toilets offer refreshing cleansing, award-winning design and simple operation. The differences at a glance:
